The right place. The right time. The right cost. The right thing.

How did this get in my hands?

It's called logistics.

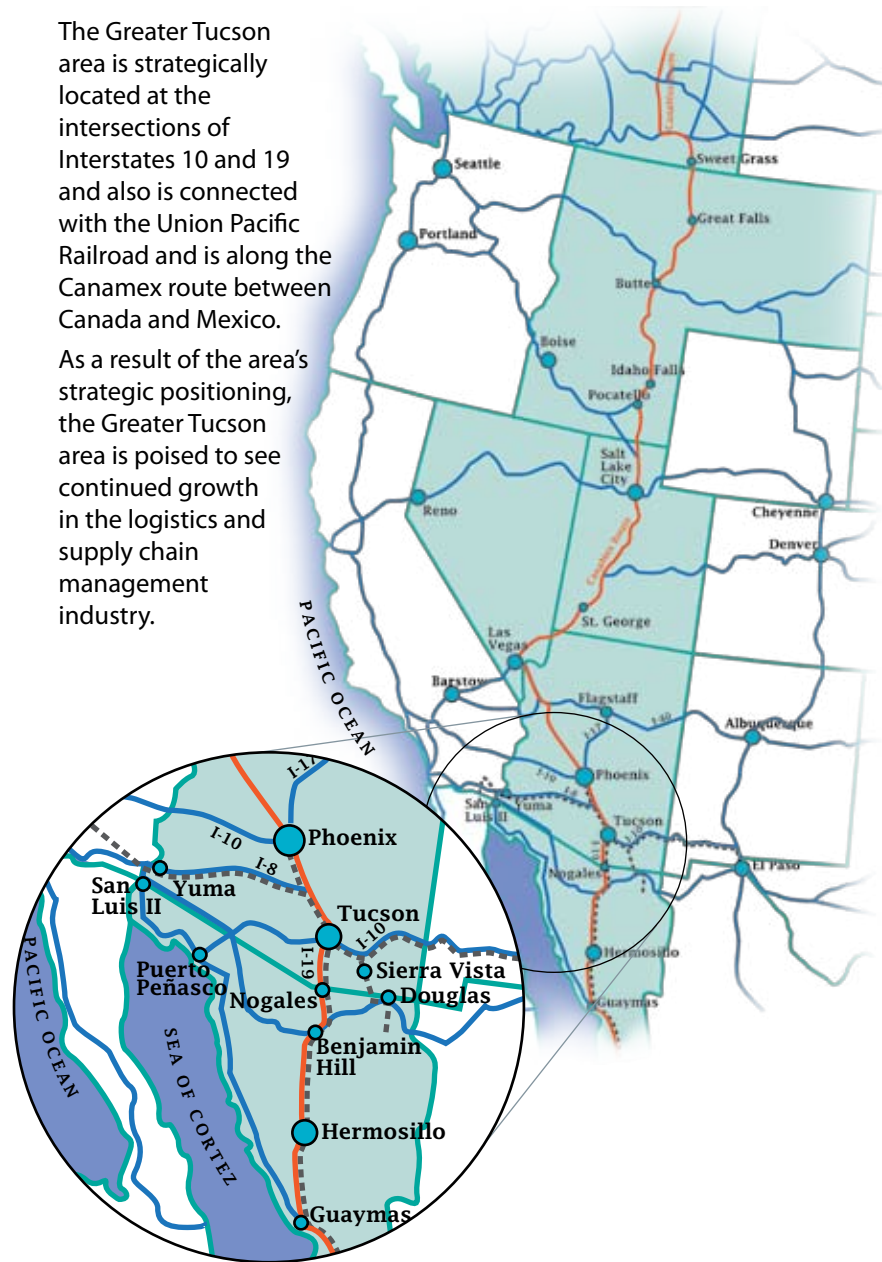

Logistics starts with a product or service and ends with a consumer, including a variety of points in between:

- Air, land and water transportation
- Information and Financing
- Regulatory Compliance
- Inventory, warehouses, material handling, packaging, order fulfillment
- Distribution and delivery of product and service

Southern Arizona's Strategic Location

The Greater Tucson area is strategically located at the intersections of Interstates 10 and 19 and also is connected with the Union Pacific Railroad and is along the Canamex route between Canada and Mexico.

As a result of the area's strategic positioning, the Greater Tucson area is poised to see continued growth in the logistics and supply chain management industry.

Origins of Logistics

Logistics got its start in the military. And today has grown into a global industry.
